

MICHELLE URREA | Senior UX Designer

danielamichelle.urrea@gmail.com | [Linkedin](#) | Sao Paulo, Brazil | +5491127902440

PROFESSIONAL SUMMARY

UX/UI Designer and Business Administration graduate with 5+ years leading user research, interaction design, and Figma component systems for e-commerce, ERP, travel, and job-marketplace products. I pair UX strategy with business acumen: defining MVPs, building scalable processes, and running Scrum ceremonies as a PM/Scrum Master hybrid — to align cross-functional teams (Finance, Commercial, Product) around measurable outcomes. I integrate AI LLMs into research and design workflows to accelerate synthesis and decision-making.

KEY SKILLS

UX Strategy · Figma · AI-Assisted Design · User Research · Usability Testing · Stakeholder Alignment · Teamworking · Cross-functional Leadership · Agile/Scrum · Jira · Azure DevOps · ClickUp

PROFESSIONAL EXPERIENCE

Inside View Global — Vancouver, BC (Remote)

2025 – Present (1 year)

UX/UI Designer & Project Coordinator (SharePoint & Intranet Solutions)

Role mission: *Design and coordinate intranet solutions and product interfaces that balance user experience, business goals, and stakeholder requirements.*

- Coordinate the full rollout of SharePoint and intranet projects, from content structuring through final interface design, applying user research and usability testing to validate decisions before development.
- Lead the team in a hybrid PM/Scrum Master capacity, running Scrum ceremonies end-to-end to keep priorities aligned.
- Own the product-definition process end-to-end: conduct client interviews to uncover core needs, scope MVPs, and align marketing, development, and UX teams on implementation through Azure DevOps ticketing workflows.

Hubernyx — White-Label Community Directory Platform ([hubernyx.com](#))

- Design the end-to-end UX for a white-label directory platform that lets Chambers of Commerce, Boards of Trade, and business associations launch a branded member directory with events and AI-powered matchmaking.
- Design the event-management and member-directory modules, translating multi-stakeholder requirements into a single cohesive interaction model.

Rapid Deploy — AI Deployment Automation Platform ([rabbitdeployai.com](#))

- Lead end-to-end UX design for Rapid Deploy, from initial user-flow mapping to production-ready wireframes, in close collaboration with the design and development teams.
- Conduct usability testing with real users to validate interaction flows before implementation, feeding findings directly into iteration cycles with developers.

WeDevelop — Florida, USA (Remote)

2024 – Present (2 years)

UX/UI Designer & Project Coordinator

Role mission: *Lead multidisciplinary teams and ensure UX deliverable quality on a large-scale digital migration project.*

- Serve as Project Coordinator, running Scrum ceremonies to keep priorities aligned across design and development.
- Manage the migration of 200+ websites to Astro architecture, integrating UX, SEO, and content into a single workflow.
- Redesign responsive landing pages and e-commerce platforms applying the Five Planes method, improving navigation experience.

Nubel — Vancouver, BC (Remote)

2024 – 2025 (1 year)

Product Designer

Role mission: *Lead product research and design for a job-marketplace platform and its associated ERP.*

- Lead end-to-end product research for a job-marketplace platform and its ERP, defining design priorities.

- Conduct interviews, usability testing, and ideation workshops that ground every design decision in evidence.
- Design gamified flows that improve interaction between candidates and recruiters on the platform.

Despegar — Argentina

2023 -2024 (1 year)

UX/UI Designer— UX Loyalty Team

Role mission: *Support the design and iteration of experiences for the customer loyalty program.*

- Conduct usability testing that guides design iteration for the Loyalty program.
- Design user flows, components, and communications for new benefit launches.
- Collaborate with stakeholders to align UX research findings with the program's business objectives.

Despegar — Argentina

2017 – 2023 (6 years)

Sr. Sourcing Non-Air

Role mission: *Coordinate operational improvements and product strategy across the Excursions, Transfers, Rentals, and DMC lines.*

- Coordinate operational improvements across 4 product lines (Excursions, Transfers, Rentals, DMCs), standardizing processes across teams.
- Led a quality-improvement initiative targeting the 20% of vendors that concentrated 80% of gross booking value, redefining quality standards and updating the internal intranet to support the new vendor onboarding process.
- Participate in internal tooling optimization projects, analyzing CRM and QlikView data to inform commercial decisions.

Coderhouse — Argentina

2020 – 2021 (1 year)

UX/UI Tutor

Role mission: *Guide students through UX/UI project development and deliverable improvement.*

- Mentor groups of students on their UX/UI projects, reviewing deliverables and guiding their professional development.
